

GreekGodBerry — Stream Games Guide

For streamer + co-streamer operators · Run interactive Kick/Twitch chat games on stream

Console (you control games): <https://www.greekgambles.com/admin/stream-games> → **Connect Discord** · **Overlays** (viewer-facing, OBS): <https://greek-bingo-admin.vercel.app/overlay/...>

No need to be live. Bots connect to Kick's chat feed directly — chat commands register even when the stream is offline.

1. Chat vs Streamer

Chat predicts whether **chat** or the **streamer** wins a challenge.

Console steps

- Chat vs Streamer** → **Create Match** (optional: **Set Challenge**)
- Open Round** → chat votes
- Lock Round** → pick **Chat correct / Streamer correct** → **Resolve Round**
- End Match** when done

Chat: `!win chat` `!win streamer` `!score` `!streak` `!status` `!leaderboard`
`!rules`

Overlay: `/overlay/chat-vs-streamer`

2. Bonus Bingo

Viewers **join**, get drawn to a **square**, pick a bonus buy. Profit turns it **green**.
Complete a line to win.

Console steps

- Bonus Bingo** → **Create Game** → **Set Keyword** (`!join`) → **Open Registration**
- Chat joins with `!join / !join <slot>`
- Start Game** → **Spin Cell** → **Draw Player**
- Drawn player types `!slot <name>` (or you **Set Slot**)
- Mark Win / Mark Loss** → repeat until a **line completes**
- Complete**

Chat: `!join` `!join <slot>` `!slot <name>`

Overlay: `/overlay/bonus-bingo`

3. Climb the Ladder

One climber, 6 rungs, 250 → 2,000 points. Chat predicts each step.

Console steps

- Climb the Ladder** → **Create Run**
- Use console **Pass / Fail / Cash Out / Climb** per rung

Chat: `!climb pass` `!climb fail` `!climb cashout` `!climb higher` `!climb status` `!climb rules`

Overlay: `/overlay/climb-the-ladder`

4. Bonus Hunt

A collection of bonus slots; chat suggests slots and guesses values.

Console steps

- Bonus Hunt** → **Create Hunt** → **Start Hunt**
- Open Guessing** → chat guesses
- Complete** when done

Chat: `!sr <slot>` `!guess <amount>`

View: hunt-tracker page from the console

Go-Live Checklist

- ☐ Console loads, **Connect Discord** works
- ☐ Kick listener connected (Render greek-bingo log: `[kick-chat]` connected)
- ☐ Overlay(s) added to OBS
- ☐ Ran a **test round** (`!join / !win chat`) to confirm chat lands

5. Tournament

Bracket-style slot tournament; viewers enter and battle round by round.

Console steps

- Tournament** → **Create** → **Open Registration** → **Start**
- Run matches, then **Cancel / Complete**

Chat: `!sr <slot>` (drawn participants)

View: console / admin

OBS Overlay Sources

Add as **Browser Sources** (transparent background). Each polls the backend every ~3s and updates live.
